

# Annual Inventory Certification - Instructions

Before you start, make sure you have the following:

1. Current Inventory Report(s)
2. Tagged Asset Found List – for assets with a tag number that are not on your report
3. Untagged Asset List – for untagged computing devices or assets worth over \$1,000
4. Annual property inventory certification signature form

Inspection Process:

## Step 1. Check each asset and mark all located tagged assets:

- Look for a State property tag (a 1/2" white tag that says "STATE OF LOUISIANA" with a number starting with "94000" or, for older assets, a metal embossed tag).
- Check the inventory report, if the tag number on the asset is located on the inventory report, mark a "Y" in the "Located? Y/N" column.
- Verify that the asset description and room number match. If not, write the correct information in the "Department Notes" column.

## Step 2. Record tagged assets not on the inventory report:

- Record tag number, building & room number where asset is located, and description of asset on "Tagged Asset Found List" form.

## Step 3. Record untagged assets:

- Record any untagged computing devices of any value (e.g., computers, tablets, external hard drives) or assets valued at \$1,000 or more on "Untagged Asset Found List" form.
- Include serial number, building & room where asset is located, and description of asset.

## Step 4. Account for missing assets:

- For any assets on the inventory report that cannot be located, after a complete & thorough search, mark "N" in the "Located? Y/N" column.
- Double check any assets listed on the "Untagged Asset List" for matches.
- Departments should be prepared to provide a written explanation for any unlocated tagged assets.

## Step 5. Return inventory to Property Control:

- Completed physical inventory reports and forms should be returned to Property Control via email at [inventory@louisiana.edu](mailto:inventory@louisiana.edu) or by hand delivery to the Facility Management office in Parker Hall **on or before Friday, December 20, 2024.**

**\*\*IMPORTANT\*\* PLEASE DO NOT EDIT (change, delete, scratch through, or overwrite) ANY INFORMATION ON INVENTORY REPORTS IN ANY WAY.** Use "Department Notes" section to write any necessary location or information changes. Neat & understandable handwriting is also vital.

**\*\**Louisiana State auditors review these documents, and they need to be clear and legible*\*\***

## Tagged Asset Found List

Department Name: \_\_\_\_\_ Department Number: \_\_\_\_\_

| Tag Number | Building Name | Room Number | Asset Description and Serial Number |
|------------|---------------|-------------|-------------------------------------|
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |
|            |               |             |                                     |

## Untagged Asset List

List all untagged computing devices of any value (e.g., computers, tablets, external hard drives) or assets valued at \$1,000 or more. Property Control will tag these assets as soon as possible.

| Building Name | Room Number | Asset Description and Serial Number |
|---------------|-------------|-------------------------------------|
|               |             |                                     |
|               |             |                                     |
|               |             |                                     |
|               |             |                                     |
|               |             |                                     |
|               |             |                                     |
|               |             |                                     |
|               |             |                                     |
|               |             |                                     |

## Certification of Annual Property Inventory

**To: Property Control Department  
Office of Facility Management**

I hereby certify that a complete physical inventory of movable property was conducted within my department. The attached inventory listing, with exceptions noted thereon, represents a true and accurate accounting to the best of my knowledge.

Date: \_\_\_\_\_

Signed: \_\_\_\_\_  
(Custodian)

Printed Name: \_\_\_\_\_
